<http://www.alfgart.com/phototravel/>

Front end developer, Graphic Designer

Historic places pixel icons for [www.alfgart.com/phototravel/](http://www.alfgart.com/phototravel/) custom designed Google Map.

[PhotoTravel Blog](#)

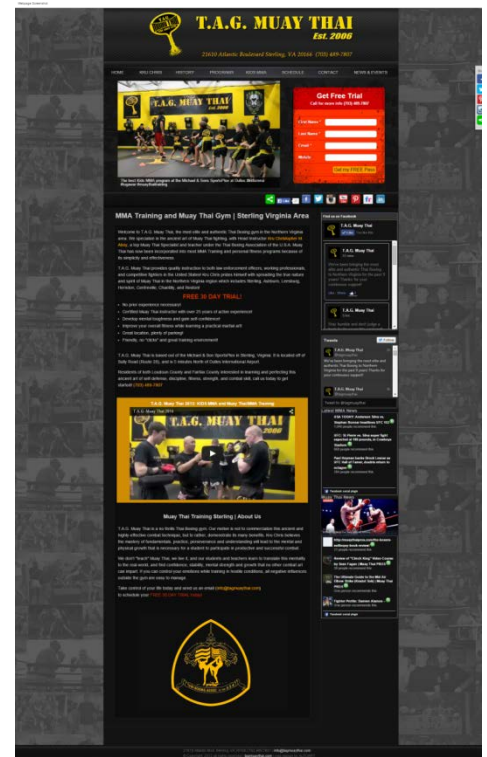

This small project in progress is based on WordPress and custom Google maps where I'm trying to organize some traveling experience by using interactive options of the maps and my own icons. I plan to add more places and articles about them into the blog section.

- Websites navigation, architecture, concept and development
- Layout design and development of web pages (Html, Adobe Dreamweaver, Flash)

## Illustration brief for Labelexpo Asia 2011

The 2011 campaign concept

The concept for this year's marketing campaign is to create a label

Planet. The concept of a label planet is to suggest to our audience

that Labelexpo Asia has

everything in one place for your label business.
